

Technical Data Sheet

Product Code: AAQUAFX Revised Date: 10/22/2024

Aqua Force

Product Description

Aqua Force is an aluminum safe liquid detergent specifically engineered for use in fountain style parts washers or “tub on a drum” type units.

Performance Features

- Quickly removes greases, oils, carbon soot, and other soils
- Safe for use on all ferrous & non-ferrous metal, rubber and plastic parts

Physical Specifications

Physical State	Liquid
Appearance	Blue Green
pH	12.3
Rinsability	Excellent

Equipment Requirements

Aqua Force is used in fountain style parts washers or “tub on a drum” type units. Operation of equipment should be done in accordance with the equipment manufacturer’s instructions.

Product Make-Up

Aqua Force is a concentrated industrial cleaner. Dilute to specified concentration.

Concentration and Application Method

Heavy Duty Cleaning

Add Aqua Force at a dilution rate of 25% by volume for every gallon added to the aqueous parts washers’ sump.

Calculation

Aqua Force volume needed (gallons) = Sump Capacity (gallons) x .25 (%)

Time

Dependent upon cleaning temperature and use concentration.

Temperature

Ambient - 110°F

Mixing Instructions

Add Aqua Force according to equipment manufacturer’s instructions.

Safety and Handling

Please review and understand the Aqua Force SDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations.

Ordering Information

Aqua Force is available in 5-gallon pails and 55-gallon drums.
