

Technical Data Sheet

Product Code: 0003127 Revised Date: 10/23/2024

Concrete Chisel

Product Description

Concrete Chisel is a ready-to-use liquid product with a specialty surfactant package engineered to break up and remove concrete residues and layers from trucks, heavy equipment, machinery, forms, and tools. Concrete Chisel has no phosphoric or sulfuric acids. It has a synergistic surfactant package designed to leave surfaces clean, bright, and residue free.

Performance Features

- No phosphoric or sulfuric acid
- Quickly removes concrete residues and layers

Physical Specifications

Physical State	Liquid
Appearance	Transparent Red
pH	> 2
Rinsability	Excellent

Equipment Requirements

Concrete Chisel is safe for use with all standard spray or manual cleaning equipment.

Product Make-Up

Concrete Chisel is a ready to use product. Do not dilute.

Concentration and Application Method

Apply Concrete Chisel directly on equipment or trucks with dried areas of concrete. For best results, allow to sit, then follow with a neutralizing rinse alkaline detergent like Seacole Total or Total B. If used on aluminum Concrete Chisel does not need to be rinsed off.

Companion Products

Please see Seacole's Total, Total-B and Evolution for a alkaline rinse product. Please see Seacole's Product Catalog.

Safety and Handling

Please review and understand the Concrete Chisel SDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations.

Ordering Information

Concrete Chisel is available in 5-gallon pails, 55-gallon drums, and 275-gallon totes.
