

Technical Data Sheet

Product Code: A040XXX Revised Date: 10/24/2024

C&H 40

Product Description

C&H 40 is a highly concentrated, alkaline powdered detergent engineered to brighten brass and copper parts in rotary tumbler without the need for additional tumbling media. C&H 40 can also be used as a cleaner for ferrous and non-ferrous metals.

Performance Features

- Excellent brightener for copper and brass
- Contains no chelating agent

Physical Specifications

Physical State	Free Flowing Powder
Appearance	White
pH	~ 12
Rinsability	Excellent

Equipment Requirements

C&H 40 can be used in all steel, stainless steel, and polyethylene tumblers. Operation of equipment should always be done in accordance with the equipment manufacturer's instructions.

Product Make-Up

C&H 40 is a highly concentrated alkaline powdered detergent.

Concentration and Application Method

Add 4oz to 12oz per gallon for optimal efficiency. Time required is based on the cleanliness of the parts. This product should be used at room temperature. Please consult with your Seacole Representative for assistance.

Companion Products

Please see Seacole's C&H 500 Series for Mass and Metal Finishing.

Safety and Handling

Please review and understand the C&H 40 SDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations.

Ordering Information

C&H 40 is available in 40# pails and 450# drums.
