

Technical Data Sheet

Product Code: A531AXX Revised Date: 3/29/2024

C&H 531A

Product Description

C&H 531A is an acid-based scale remover and cleaner formulated for use on all metals in mass finishing systems.

Performance Features

- Removes: rust, oxides, mill scale, and heat scale
- Provides faster descaling than alkaline scale removers

Physical Specifications

Physical State	Granular Solid
Appearance	Light Brown
pH	≈ 2
Rinsability	Excellent

Equipment Requirements

C&H 531A is safe for use in all standard mass finishing systems. Operation of equipment should be done in accordance with equipment manufacturer's instructions.

Product Make-Up

C&H 531A is a concentrated acid-based scale remover. Dilute to specified concentrations.

Concentration and Application Method

Add 0.5oz to 8oz of C&H 531A per gallon of water for scale removing solution. Closed barrel type machines should be vented to avoid pressure buildup during the cycle. Rinse well with water. For prolonged rust protection use C&H 577 in the rinse water for ferrous metal parts or dip parts into C&H 585 after rinsing.

Companion Products

Please see Seacole's C&H 500 Series for Mass and Metal Finishing.

Safety and Handling

Please review and understand the C&H 531A SDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations.

Ordering Information

C&H 531A is available in 50# pails and 400# drums.
